STATE COMPETITIONS

Competition Name	Type	Materials to Submit Prior to State	Materials to Bring with you to State	Activity at State	Audio Visual Equipment Needed
Electronic Portfolio	Individual	Link to your e-Portfolio	Presentation/Visual Aides (optional)	Presentation	Laptop, Projector, Speakers

In this document, you will find:

1. Instructions for pre-submitting materials online.
2. Instructions for bringing materials to state conference.
3. A matrix containing all of the competitions at state conference and which events need pre-conference submissions.

Pre-Submitting Materials

Some events require that you submit materials prior to State Conference (see requirements below). All materials that are submitted online should be uploaded at www.edrisingaz.org by clicking on State Conference and then UPLOAD MATERIALS HERE.

All documents submitted should be saved as follows:

"Competition, Chapter Name, Student Last Name(s)"

For example, if I was submitting materials for the E-Portfolio Competition to the upload form, the subject line of my attachment would read:

"E-Portfolio, Marana High School, Ellis"

It is important to use this format for the submissions to stay organized.

The preferred file formats for submission:

Documents: PDF

Presentations: PowerPoint

Videos: YouTube videos are preferred. Please insert an MP4 or a website link in the form. If you are submitting a link to a video streaming site such as YouTube or Vimeo, please include the link in the Cognito form.

All materials that are applicable to this section must be turned in by the submission deadline that is posted on the EdRising Arizona website.

Competition Materials at State Conference

In general, the only materials that should be submitted at state conference are videos, presentations, and displays.

Videos and Presentations: We STRONGLY recommend bringing all videos or presentations on a flash drive. The competition rooms at the hotel do not have WiFi. Competitors will be held responsible for having their presentations and videos ready when it is their time to compete. We will do our best to accommodate competitors who do not bring their materials loaded onto a flash drive, but we do not guarantee that this will be possible. Educators Rising Arizona will provide projectors, laptops, screens, and sound for these competitions.

Displays: Competitors in competitions that require displays (tri-fold, etc.) to be set up will be advised of the time to set their displays up prior to their competition. These displays must be brought with the chapter and stored by the chapter until this time. Competitors will also be advised of when the competition will end, and will then be required to claim their displays.
